## Profile

Passionate Mobile & Web Developer with hands-on experience in Android (Java/Kotlin), Flutter, and modern web technologies. Proven ability to build responsive, user-centric applications across platforms. Skilled in Firebase, RESTful APIs, UI/UX design, and Agile workflows. Currently expanding expertise in frontend web development, integrating mobile and web solutions for seamless digital experiences. Quick learner, collaborative team player, and committed to writing clean, scalable code.

## Skills

### Technical Skills:

- Programming Languages: C++, Java, Dart, SQL.
- Mobile Development: Flutter, Android SDK, Jetpack Compose.
- Web Development: HTML, CSS, JavaScript, Node.js.
- Database: Firebase (Firestore, Realtime Database, Authentication, Storage), SQLite.
- Tools & Platforms: Android Studio, Visual Studio Code, Git, GitHub.
- APIs & Integration: RESTful APIs, Google Maps API, Payment Gateways

### Soft Skills:

- Problem-Solving & Debugging.
- Agile & Scrum Methodologies.
- UI/UX Optimization.
- Time Management & Communication.
- Adaptability & Team Collaboration.

## Professional Experience

### Web Developer

08/2025 – present | Zarqa, Jordan

#### Taa Academy

As a Web Developer, I build responsive apps using HTML, CSS, JavaScript, and Node.js. I write clean, maintainable code to ensure cross-device functionality, smooth UIs, and efficient server integration. My work focuses on performance, usability, and scalability to deliver full-stack solutions that meet real user needs.

### Flutter Development

04/2025 – 06/2025 | Amman, Jordan

#### App Trainers

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Collaborated with senior developers to implement UI components and integrate RESTful APIs.
- Participated in agile sprints, contributing to real-world projects from design to deployment.
- Enhanced app performance through debugging, optimization, and state management techniques.
- Gained hands-on experience with Firebase services, including Authentication and Firestore.

### Android Developer

02/2024 – 05/2024 | Amman, Jordan

#### LeadingPoint

- Completed a three-month training program in Android development.
- Gained hands-on experience in developing Android applications.
- Focused on Java and Kotlin programming languages.
- Learned best practices for mobile app design and functionality.
- Improved skills in writing efficient, maintainable code for Android platforms.

## Projects

### TechSpot

#### Ecommerce application for electronics

- Front end using XML files.
- Backend using Java.
- Worked with various Firebase services, including Realtime Database, Authentication, Storage, Crashlytics, Messaging, and Cloud Firestore, to enhance app functionality and reliability.

## Education

### Bachelor's Degree in Computer Science

10/2020 – 06/2024 | Amman, Jordan

#### University Of Jordan

## Certificates
